Personal Memo from
JOSHUA LEDERBERG

W. O. B.

Dear Bill

JUL 23 1985

NAS committee on techno-embargo of USSR.

FYI - Frank Press + Lew Allen have drafted mean to this: a very tricky matter, as you know.
1/n x 10^6 items on critical list!

It will take more time than I can afford. In compensation, however,

1) I am not putting in any time on Clean Sites, Inc. now that this is well organized.

2) The MacArthur et al foundations' proposal is not working out as I had hoped/feared (as a private sector "PSTC") - at any rate it will not entail the drastic shift in my govt. consulting commitments I had been projecting.

Personal Memo from
JOSHUA LEDERBERG

A propos techno-embargo

It would be a good idea to hold a panel in N.Y.C. with business/financial leaders knowledgeable in international (tech.) trade. DR has already suggested a few resources.

No rush: your suggestions would be welcome.

The current membership of our NAS committee is enclosed.

Yours,

JL

CE, HWP are not IBM or ATT.
