Personal Memo from
JOSHUA LEDERBERG

Dr. W.O. Baker

JAN 30 1986

(not-for-profit) Corporation for National Research Initiatives

Dear Bill: Kahn

Bob Kahn has organized this foundation (he has just left DARPA).

I have (reversibly) agreed to serve on its board, together with Dick, Evgeni of CMU and 2 executives of DEC and Xerox.

Bob is still fairly vague on modus operandi; he has collected pledges of a couple of $MM, and hopes to develop a fund to support R+D on US. information infrastructure.

I hope this sounds sensible to you. If not, I can back out after a graceful interval.

Yours,

Joshua.
