Dr. B Barber

Personal Name from
JOSHUA LEDERBERG

JUL 29 1986

"on resistance"

Humboldt or Helmholtz?

(see aphorism)

For 70 years or so I've been trying to track down the aphorism attributed to Humboldt, i.a. by Morison and many others.

They are all copying one another.

I just now looked again at your article on resistance: I should have consulted you sooner.

Do you recognize the quote?

Could it have been Helmholtz?

Yours,

Jim.
