

Dept. of Genetics,  
The University,  
Glasgow, W.2.

22nd January, 1952,

Dear Lederberg,

Have you anyone in mind who might be  
*(or are you interested yourself)*  
interested in spending eight months here? The  
salary is quite enough to live on, as the local  
people do, but clearly a combination of this  
job with a fellowship to visit Europe would be  
more advisable.

Kindest regards,

Yours sincerely,

S. H. Voute

This could be a good combination  
for someone wishing to attend  
the Genetics Congress in Italy in  
August 1953
