Dr. Joshua Lederberg
Department of Genetics
School of Medicine
Stanford University
Stanford, California

Dear Dr. Lederberg:

Early in the time that you were at Wisconsin, you furnished me with a transplant of Salmonella typhimurium, 84i. Through a laboratory accident, our stock culture of this strain has been destroyed, and I have been unable to replace it here on the campus. I am wondering if by any chance you have this culture in your collection, and if so, would you be willing to furnish me with another transplant?

I am sorry to trouble you a second time, but I shall be most grateful if you can send me this organism.

Sincerely,

Dorothy H. Strong

I believe, but am not certain, that the enclosed is the strain you want. we have it as "Hilleengen type 1" strain 84 (S. typhimurium LT-1). Have you any other remarks on file to corroborate?

Regards, Joshua

LT-1 #84

STRONG, D. H.
