Dr. Roy U. Schenk
480 Russell Laboratories
University of Wisconsin
Madison, Wisconsin 53706

Dear Dr. Schenk,

Thank you for your letter of January 12th. I was not so negligent in reacting to your original letter of December 2nd as you had any reason to think. I had hoped I might be able to reply with more promising news than is in fact the case. Unfortunately I do not see any prospects within my own immediate view for sponsoring or supporting your research. However, I have made a few other inquiries but have had no returns from them. It would be very disappointing to find your work frustrated and I certainly will do what I can to facilitate keeping accounting.

It would be of some interest to me if you could give me a little more detail about the circumstances surrounding the abrogation of support. At what level was the decision made as far as you know to proceed in this way?

Sincerely yours,

Joshua Lederberg
Professor of Genetics

JL/rr
