Thou - Palay

is an extraordinary person who visited me today at Hans Maale's urging. I think you should see her in re roles at Harvard in health/science/policy.

She may also be able to be ~~HH~~ helpful with IOM/NINDDS research strategy studies

I will call you further about her; but better still, don't wait to call her that you can make an appointment (which she is eager to have) to see her in Washington.

Josh.
