HEI

I'll certainly keep an eye open for the people you're seeking.

We (and I mean Rockefeller + Stanford) need to do much better than we have to educate + inspire the cross-disciplinarians urgently needed.

I can more readily suggest some names for the Committees than for the scientific staff. Leaving aside the most obvious visibles you might consider:

Gil Omenn
Bill Lowrance
Mike Mehlman (Mobil + Editor of J. Env. Path. + Tox. One of the savviest people in the game. His list of editorial advisors is a checklist!)
Chris Walsh - MIT
Dick Wilson - Harvard

HEI/Scientific Staff
I'll send a few cv's. Good luck — you'll need it! (But it pays to advertise.)

Yours,
Jim.
