Mr. Adrian de Wind

JAN 26 1984

NRDC

Dear Bill —

This is to tender my resignation as a trustee.

You know how much, as a founding member, I endorsed the special role of NRDC as an agent for the enforcement of environmental law through litigation. I did not agree with every initiative, nor need I: you had the discipline of judicial outcome.

Now NRDC has gone far afield: in advocacy, in public propaganda, and far away from its original environmental agenda.

I do not feel I can any longer serve a useful purpose, much as I applaud the many good things that NRDC will continue to do. Where I can in other roles, please call on me.

Sincerely,

John

CC: John Adams.
