Dr Richard Belderd

FEB - 7 1983

Collegiate Review Sam #

Thank you. Yes, I have something concrete in mind and I will deliver it by March 25: "the structure ~~of DNA~~ and the complexity of the human ~~organism~~". Please hold me to time it to your audience.

Thank you for your note about David. He does seem much calmer now that his choices (and self-image) are crystallizing.

Sincerely

Joshua Lederberg
