Hon Richard Dantzig
Undersecretary of the Navy
Pentagon. 2/18/94

Dear Dick -

Suggestions for your BW library

(re what's publically advertised!)

I've not been so keen about that, either WHO or OTA (and had some influence on the latter). But how do you get policy attention without public excitation?

J

Look forward to seeing you next month.

P273

BW

Technology Surprise:

Best sources of experience and insight:

- Julian Hall - former NIO/S+T
  can several studies I worked on
  now at IDA
- Barry Leven (or Levin?)
  once in ONI
  later at CIA, maybe still there.

We need brand new thinking for proliferators. Like who would use calutrons in the 1990's! Saddam Hussein.

Steve Lukasik is generally very smart on such issues.

J.
