Personal memo from
JOSHUA LEDERBERG

Senator John Glenn

Next steps in BW disarmament:

Dear Senator

I can't find the words adequate for my profound congratulations to you for your statement in Proliferation Watch!

Your program is just what I have been pedaling for 30 years. It is all the more urgent since USAMRIID's mission has been narrowed. Perhaps just as well that non-military agencies be the vehicle ... but it must be done somewhere.

Yours sincerely,

Joshua Lederberg
