Personal memo from
JOSHUA LEDERBERG

Surg. Cdr. Davis
MoD.

JUN 21 1991

Dear Dr. Davis

Delighted to hear from you.

My "vague" address is quite sufficient; but here is a card with more details.

---

At moment I am quite upset by what seems to me the nonchalant approach being taken to inspect Iraq BW sites on the part of the UN commission. But I have been knocking on a lot of doors to try to energize a more coherent plan for exploitation and analysis. By the time the teams are on sites they may be all cleaned up!

I notice the name of a Prof. Bryan C. Barnes as a US member of the CBW working group. Should you know him, would you communicate to him what needs to be done to make this an effective inquiry? I feel it imperative to get out the physical evidence of the Iraqi BW program to provide publically accessible substantiation.

Sincerely,
Joshua

Personal memo from
JOSHUA LEDERBERG

P.S. Thank you for the historical notes. Fascinating.

---

P.P.S. Have you ever seen Ingmar Bergman's film The Seventh Seal?

---

I'm in Washington average 1 day per week. Let me know, please, when you might be.

J.
