Personal memo from
JOSHUA LEDERBERG

Dr. A. J. Spear
Jet Propulsion Lab
MESUR - Mars Env. Survey
Pasadena CA 91109

Pathfinder.

Congratulations for what seems to me just the right tech!

I've been more or less out of "space" since Mars Viking landers, and have had limited enthusiasm for what has transpired since. But this development really does come as good news. I hope you can pull it off!

If you have a mailing list for research bulletins, please keep me informed

Sincerely,
Joshua Lederberg
