Dear Minnie

I'm glad you had the trip to Ny today - sorry you had such a difficult time calling me up. But I know you understand. I did not tell the operator because I really expected to be back about Eleven. This morning I was at the Medical Center at 8.30 sharp - "Do" went with me to Floor 7 (not the Harkness) and I had a Basal done - then a blood count, then breakfast at Harkness - Orange juice, Egg Bacon

Rolls, Coffee & Cream — $1.10 Go there or
do likewise Friday — After that Mr Palmer
gave me a through physical — Heart & lungs
etc — in fact nothing wrong except
the basal was a bit high (+22) &
that together with my weight & slightly
increased pulse suggests a bit too active
a thyroid — but even that is only a
tentative diagnosis. So that was
very satisfactory. And something that can
be taken care of very easily — Otherwise
I'm feeling splendidly — I simply
thought I ought to make sure there
was nothing organic & there isn't.
