IN REPLY REFER TO:

September 27, 1961

Dear Joshua and Esther:

I must apologize for not writing sooner, but I have only just received notification (still unofficial) that I will receive the fellowship I applied for last January.

I had hoped to arrive early in October, but, with all the details still to be attended to, I am afraid that my arrival time will be delayed until the end of October or early in November. I hope this postponement will not cause any undue inconvenience. Having just gotten married, I find that it is no longer so easy to pick up and leave as it used to be.

We had a short visit here with Fritz Orskov who mentioned that he will be seeing you this weekend.

As soon as all arrangements are definite, I will drop you a note. Best regards,

Yours,
Ron
