Sager 2/61

Josh -

These are my proofs. I will write when I need them which may be within 2-3 weeks. I will send the rest from N.Y.:

Ch. 9 : Non chromosomal heredity
10 - Some Mechanisms of Gene Action
11 - Genetic Control of Cell Integration
13 - Summing up.

Those are my favorite chapters + I will seriously stand by their contents (till more data or better hypotheses appear).

Ruth.
