Memo from
JOSHUA LEDERBERG

To: Martin Kaplan

PERSONAL

CW appropriations DEC 16 1975

Martin – So far as I can tell HR 9861 has been sent back to conference a/c continued disagreements on a variety of d.o.d. appropriations. I did not see further discussion in floor debate about banning CW; but the fact is that there is not yet a law with definitive language.

Ambassador Martin was most interested in the proposals we discussed and would certainly like to hear more. He will contact you when he returns to Geneva in mid-Feb.

Josh.
