Joshua Salomon Lederberg
June 20, 1932

What I Would Like To Be

I would like to be a scientist of mathemmatics like Einstein. I would study Science and discover a few theories in science.

(age 7)

11/3/97: my earliest autograph. June 20 1932.
Handwriting not much improved.

The "Salomon" is an affectation, never properly my name

J. L.
