Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin, U.S.A.

May 9, 1953

Dear Dr. Lederberg,

working on a case of cytoplasmic inheritance in Bilicidae, the first account of which will appear in a few days in „Zeitschr. f. ind. Abst. Vererb. 85, 1953, 118f", I am very interested in your recent paper

Cell genetics and hereditary symbiosis.
Physiol. Rev. 32, 1952, 403-430

I would appreciate it very much if you could send me a reprint of this paper if you have any available for distribution. I will send my paper in exchange as soon as I get reprints.

Gratefully yours

H. Laven.
