Dr Elof J Carlson
SUNY - Stony Brook.
JUL 15 1983

Nobel Prize 1958.

Dear Dr Carlson -

My reading, just now, of the Nobel selecting process made me reflect that it was probably the most likely person to have nominated me, 25+ years ago.

I do not ask for more details; but at this interval I wonder if you can confirm this hunch.

He never spoke of such a matter to me; but as you know he could not have been more encouraging and supportive from the very inception of my career.

Yours
Joshua.
