June 23, 1955.

Dear John,

Thanks very much for the phase variation abstract + the review of Ephrussi's book. I'd appreciate it very much if you'd send me more about the former as soon as it's available.

I'm sending along a reprint of the recent PNAS paper, plus one of our growth symposium papers — they now rather out of date.

Even though I was occupied more than I thought I would be ~~on~~ with society business (thanks to a certain individual I needn't name), I enjoyed the conference and was very glad I had a chance to talk with you and Esther.

I guess you detected a sort of troubled look on my face during the first 2 or 3 days. I'll have to practice putting on a poker face.

Rob

P.S. A check covering your expenses will be sent within a week.
