KERCKHOFF LABORATORIES
OF BIOLOGY

August 8th.

Dr. Joshua Lederberg,
University of Wisconsin.

Dear Dr. Lederberg,

I expect to be visiting Madison next month, probably on, or around, Friday 16th, and I would like very much to be able to see something of your work on bacteria. I have been at Pasadena on a year's visit from Cambridge, England, working on biochemical genetics of Neurospora, and I expect that microbiological genetics will be my main pursuit in the future. I was working under Dr. Catcheside at Cambridge, and I hope to get my Ph.D. there this fall.

Could you let me know whether it would be convenient for you if I came on the 16th? I would probably be able to manage some other date if that suited you better.

Yours sincerely,
JRS Fincham (J.R.S. FINCHAM).
