Austin, 12, 11, 47

Dear Dr. Lederberg,

I read your article in Genetics (Sept. 1947) with great interrest. I consider the material represented there of outstanding value for the field of Bacteriology, in which line I am working. For this reason I would like to have a reprint of the Genetics article as well as other publications of the same nature published previously. I wonder if you could supply me with such!

With great regard for your work and hopes that you will be able to send me the reprints, I remain

Very sincerelly yours

Robert Fuerst
