Dr. J. Lederberg
Department of Genetics
College of Agriculture
University of Wisconsin
Madison, Wisconsin

Dear Dr. Lederberg,

I am very sorry that I missed a chance to see you while you were in Bloomington on your way to Oak Ridge. However, I am very glad to write you that I ~~will~~ am going to visit your University at the end of this month or at the beginning of the next month (August), because I must meet with (call) a friend of mine, Dr. Y. Takagi, who has been working at the Macardle Memorial Cancer Institute, Wisconsin University. Therefore, If you would kindly give me an opportunity to see you and your laboratory, I should be much grateful to you.

Now I am very happy to get a financial support to continue my studies on Trypanosoma at the Naval Medical Research Institute, Bethesda, Md. for one more year. It was kind of Dr. Sonneborn to make an application for a grant of the U.S. Public Health Service.

I fear ~~that~~ how the application by Mr. Sins would be resulted.

If it is not too troublesome, please let me know when is most convenient for you to see me at your laboratory. Sincerely yours

Shozo Inoki
