

TABLE OF CONTENTS

I.	SUMMARY	
A.	Brief Evaluation of ACME Experiment.....	1
B.	Highlights of FY73.....	5
C.	Planning & Reorganization.....	6
D.	Overview of ACME Experiment.....	8
II.	STANFORD MEDICAL CENTER COMPUTING PLANS	
A.	The Current Scene.....	10
B.	Shared Database Planning.....	10
C.	New Faculty Appointment.....	10
D.	Some Observations on Computer Planning.....	15
III.	ACME FACILITY ACCOMPLISHMENTS - FY73	
A.	Planning Studies.....	16
B.	Time Oriented Database Development.....	16
C.	New & Continuing Applications Programs.....	17
D.	System Software Improvements.....	18
E.	Education & Training.....	19
F.	Hardware Changes.....	20
G.	Operations.....	21
IV.	ADMINISTRATIVE ORGANIZATION.....	23

V.	PROJECT DESCRIPTIONS	
A.	DENDRAL.....	26
B.	Time Oriented Database System (TOD).....	37
C.	New Analysis Programs for Time Series Data.....	68
D.	Miscellaneous Core Projects.....	76
VI.	BUDGET	
A.	Resource Expenditures.....	78
B.	Expenditure Details.....	79
C.	Summary of Resource Funding.....	84
D.	Resource Equipment List.....	85
E.	Income Statement for Twelve Month Period..... Ending April 73	87
VII.	UTILIZATION DATA	
A.	Interpreting Utilization Charts.....	89
B.	Patterns of Use.....	90
VIII.	APPENDICES	
A.	Rationale of Shared Database Concept.....	125
B.	Medical Center Computer Planning Chronology.....	134
C.	Small Machine Multiplexor..... (Excerpt of ACME Note HAD)	138
D.	ACME Note Index (May 11, 1973).....	142
E.	ACME User Publications.....	164

N O T E

This last annual report, covering FY73, ACME's administrative extension year, was prepared at this time (May 1973) because staff was available to do the work and because NIH requested that the report be made.

An addendum to this last annual report will be prepared sixty to ninety days after the end of the grant period (July 31, 1973).
