Dear Dr Lederberg,

I have to thank you very much for the collection of off-prints of your papers just received. I hope you will continue to keep my name on your mailing list. We find such collections of off-prints most useful for our Honours degree students, as well, of course as the staff. You will note from the above address that I have changed my job and am now engaged in building this department to give a B.Sc. microbiology with developing an Honours School & research.

With many thanks, yours sincerely, B. C. J. G. Knight

P.S. The off-prints just received had been sent to my previous address; the above is the correct one now.
