Dear Joshua & Esther:

I thank you for your nice letter. Since I came over the Institute, the idea of having a change next year has been coming and going in my mind. I certainly would appreciate deeply, if you let me know when you hear anything else.

Under separate cover, I am sending you few of our recent papers. I regret to say that the chemical part of induction has not been published yet. However, when I get the reprints, I shall send you one immediately.

With best wishes & regards

Sincerely

R. C. Mill
