25 June 59.

Dear Josh;

I recall you once asked if a deficiency of lactase were known. There is a report in The Lancet of May 30th of two patients (sibs) who may have such a defect. The authors are Holzel, Schwartz & Sutcliffe, page 1126.

May I have a reprint of your recent article in Science - "Genes & Antibodies"? Thanks.

With best regards,
Yours truly,
V Sutton
