Dear Josh,

Since I am endorsing a couple of biochemists (among the McElroy) for membership in the Nat Academy of Sciences I would suggest that you and At Hershey (if somebody else haven't done it already) proposed Seymour Benzer, Seymour S. Cohen & Rollin D. Hotchkiss. Max Delbrück would probably take care of Benzer anyhow. Seymour Cohen is close to biochemistry and I might drop a line to Arthur Kornberg. Anyhow the Academy needs fresh blood.

Kindest greetings &
Wishes for Xmas & New Year
to you & Esther from us

Ever yours

Herman

P. S. After X-mas I will write you a letter about an idea about a symposium at the National Academy on something like "The Molecular Basis for Interaction of Alleles" We have also fine news to tell in our Kiz research.
