Dear Joshua: Will you be on your base March 15-21. If so I wanted like to pay you my respects. I can do so in ½ hr. # Our son Tom is in Kornbergs Dept. # We have another son at Berkeley # I noticed while in N Y City last week an item in the N.Y.T. that the stuff hurled at the moon was only "partially sterile". Who coined that combination? Its either sterile or not sterile. I know that from one course in Ag Bacty taken in '20 long before you put sex on the map microwise. It wanted appear to me that zan "LUNAR GUYS" are or have to make too many con-
