Dear Doctor Lederberg,

I would very much appreciate if you could send me a collection of your reprints you have still available. I am particularly interested in the following:

- Gene recombination in the bacterium Escherichia Coli 1947 Journal of Bacteriology
- Gene recombination and linked segregations in Escherichia Coli - 1947 Genetics
- Problems in microbial genetics 1948 Heredity
- Direct utilization of maltose by escherichia Coli 1949 - Journal of Biological chemistry
- Aberrant heterozygotes in E. Coli - 1949 Proc. Nat. Acad. of Science

Thanking you in advance I am sincerely yours

E. Wollman
