Vapor)

Re: Env. Qual. Council

I was delighted at the news of the appointments of Train et al.

When I called you I was not aware of the brouhaha about Tom Williams and I hope I did not lead you to put your foot in it. The situation is, in my view, very bad government and even worse politics. Would it be impossible to get him on to your staff, or CEQ's, after this? He's a first rate person.

Jack.
