Dear Dr Lederberg

I have read from time to time of the work that you have done in the field of genetics, and have been quite impressed by what I've read. However it has only whetted my appetite to know more about it and the work you are doing. Do you Dr Lederberg have any works published in Book Form. I have heard about you only through Magazine sources. I would like more detailed information.

I know you are busy, and I thank you in advance for any time and information.

Wishing continued success
