Dear Josh,

Thanks for your letter about Suzanne, - I've decided to accept her as a post doc. Since I do not have funds that could be used for her support she will not be able to begin work here until she can obtain and activate a fellowship. I assume from your letter that you will be able to take care of her until that time.

I was surprised by your decision to take on Rockefeller but I look forward to the imaginative changes I am certain you will make.

Best of luck -

As ever,
Charley (Yanofsky)
