Memo / ply From
JOSHUA LEDERBERG

TO: Dr. John B. Bowes
Mary Fes.

Thank you! OCT 4 1978

heartily for your generous and thoughtful hosting of that lunch with the foundation executives. I enjoyed it, and I am sure it will have been an important first leap for my new role. May I reciprocate the pleasure, at your convenience, with a lunch with some of my colleagues over here?

I just ran into the enclosed. What's amusing is that H. Katchadourian at Stanford was trying, unsuccessfully to get funding for such a study from the Commonwealth. I agree we know even less about pre-medical education than later on. Hoping to see you soon

Josh.
