THE ROCKEFELLER UNIVERSITY
MAY 12 1981
OFFICE OF THE PRESIDENT

Dr Joshua Lederberg
Rockefeller Univ.

Dear Josh.

For the Cold Sp. Hbr. 1948 Conf. on Isotopes I have a Program, a Table of Contents which is apparently advertising, and stapled in photos of:

Branson
Bentley
Hammarsten
Bloch
Burch
Ehrensvard
Heresy, ?, & Ussing
Kamen & Spiegelman
Rittenberg

These are cropped 2 1/4 x 2 1/4 contact prints and would copy OK. I no longer have facilities to do so. The negatives were all discarded prior to my retirement and move in 1978.

I enclose the program, and if you wish to borrow them I will carefully remove the staples and loan you the pictures.

That was the last conf. for which I did this but reviewing it now brings back memories.

I now reread your note and realize you were asking about 1946 — Heredity & Variation. I can't even find my volume on it, although I do have 1947 with a few pictures. If I do find 1946 I'll write you but suspect it was discarded in 1978.

Sorry for this "no help" response.

Sincerely,

George B. Brown
