31.1.73

Dear Dr. Lederberg,

I have had a look at the grant proposal and am getting very interested. I hope to do some reading as soon as I finish with writing up several papers concerned with work which has been done in this lab during the last years. They are long overdue and I want to send them for publication before I leave. Otherwise I am getting into thrombin which I have to get going before the summer.

EMBO unfortunately will not grant anything to Europeans (or pseudo-Europeans like me) travelling to the U.S. Do you have any other possibility in mind?

I enclose a curriculum vitae and a list of publications and manuscripts in preparation.

Sincerely,

Yehudit Eilkena
