Memo from
JOSHUA LEDERBERG

To: Yehudit

JUN 16 1975

I am sorry to hear such bad news; and I do not see what other resource you have.

Are you sure there will be laboratory opportunities in the specific area you mentioned? How are you investigating this question?

I must run now; if I have any more ideas I will write again.

I will be at WHO Geneva till ~~July~~ June 28 but will then return directly home.

Love from us all

Joshua
