Dear Josh,

I would like to hope that Columbia can become a really first class ivory tower for a few who can really profit by such an opportunity. Toward that end could you expand a little more on paragraph 4 of your letter of April 25. I would like to work very hard on incarcerating you in an ivory tower or Morningside. It would be wonderful for Columbia and the NYC area – and quite possibly it could be wonderful for you.

Betty & I leave for Italy tomorrow, will be back in late June. Could you let me have a few more details about that tower then? If need be I could come out – I would rather not wait until mid October to see you.

The best

Gabe
