Paris, le 14 April 1967

Dear Josh,

A small request.

The Australian Academy wishes to take up vigorously your suggestion of using museums to preserve wildlife tissue specimens. However, they need information. Unfortunately, the little memo you sent me appears to have been lost in transit Paris → Canberra.

∴ Could you please send all (see) relevant information to Prof. R. Walsh, Secretary I, Australian Academy of Science, Jordan St, Canberra, A.C.T. Australia.

All best. Will we see you in Paris before end June? – Sus.
