Personal memo from
JOSHUA LEDERBERG

Dr B Bachmann ✓

JUL 2 1993

Dear Barbara -

W1485 = (λ^-) K12

If David Thaler hasn't already proved you, may I request a culture of W1485 = K-12 λ^-? If that's not handy any compatible (λ^- Lac$^+$ Mal$^+$ preferably prototroph).

Once again,
thank you!

Yours
Joshua
