Thanks for the reprints.

I am sorry my rush visits have been and will be so preoccupied; I may not be able to touch base with you before September.

Warren, as you probably know, is at the Rockefeller Foundation now; and he and Tony Cerami have told me about a super-course that will be offered ? at R.U. ? Nov. 78 on various aspects of tropical health. Needless to say I want to add every encouragement to developments along these lines.

Very regards to Audrey; Sincerely,

John
