JUL 21 1979

Sibling Incest

Jim —

There might be some public service to respond to this, and the better from your informed perspective (I think of your 1967 paper in Pediatrics)

I would have said (1) The taba will do even more damage than homozygosity (2) See your neighborhood counsellor! (Entire nous, do you think abortion is indicated on genetic grounds? What is your risk estimate?)

Jos.
