Josh: Am now waiting for Sonia. I have good news. My grant application to NCI has a high rating & Dr Lieberman in the Immunology Section tells me that it surely be approved by the Panel May 11-13.

It can be made effective as early as June instead of August.

Undoubtedly the letter I framed for Bob Good did the trick.

There is more for us to discuss and I'll try to have your girls give me 10-15 minutes if at all possible before our conference on Tuesday April 29th

Here is a copy of the book containing the papers of the 5 day Aspen Conference August 1978 - all in my honor. This copy will be replaced by a bound later
