Memo/Reply From
JOSHUA LEDERBERG

TO: Dr. Goldberg.

SEP 25 1978

How delightful to hear from you!

I'm sorry we're booked for the 14th: I would enjoy sharing the reminiscences.

What was the name of the WAVE in your picture? It's at the top of my figure.

Sylvia (Breyer) Averbach is one of the crew I have renewed contact with. After her husband, a Philadelphia gyn. died, she worked in my lab at Stanford for a while. Now she commutes to N.Y. as an off-off-B'way actress! I'm sure she's topps.

My best to Lee. I hope we can find some other point of connection:

Yours,

John.
