Dr. Ann Cook Cranesan

12/1/91

Dear Ann –

I was so shocked to hear that Can had died – I gather suddenly.

What hard luck! Not for the first time. How he loved the laboratory* and stuck to that through so many trials. And I gather he was just back toward a new peak of optimism and productivity.

Oh Ann, I do grieve with you.

Yours,

Joan

*and I know how often he did not get full credit for his accomplishments.
