Dr. Wm. O. Baker

JUL 14 1990

Staying in touch.

Dear Bill –

Restarting labs is like coming home after an Odyssean adventure.

News is generally good. Two Foundations (Markey and Sloan) have committed support for this year – and Tony Kuggers, with no urging from me is leading an initiative to build a dowry. Recruiting is also very promising.

My participation in the Stanford initiative (F-1 of Sumner) will bring some advantages of that multi-million dollar investment back to RU.

All the best to you,

Jack.
