memoirs in Bioessays.

I appreciate the opportunities offered. But I'm already committed beyond capacity.

For Hayes, the most appropriate would be his erstwhile collaborators in Paris —
Elie Wollman or François Jacob.

For B Davis — I really wish I could. But I'd pass the baton to:

Gerald Weissman — NYU
Werner Maas — "

Boris Magasanik — MIT
Bernie Fields — Harvard

Dulbecco, Ernst Ginsberg — coauthors of his text book.

Sincerely

Joshua Lederberg
