Personal Memo from
JOSHUA LEDERBERG

Dr. S. E. Luria
MIT.

JUL 16 1986

Dear Salva:

"The penicillin method" - old history

Do you have any secure recollection of that encounter? Was it at Madison (or Chicago or Urbana)? Do you have any way to date it?

When, where had you heard about it from Bernie?

I have no other record or recollection myself. The incident is interesting in many ways, including the communication network of those days.

All the best,

John.
